Forecast for Saturday 22 Jun 2024

Weather: Some low cloud and patchy light rain soon clearing away to leave a dry day with good sunny spells. Strengthening southwesterly winds arrive in the late afternoon as cloud builds with a chance of some patchy light drizzle in the evening, mainly west of the A9.

Chance of cloud-free hill tops above 800m: 80% or more, falling to 30% in the evening.

Low cloud and visibility: Some early cloud around 1000m will lift and break through the morning. Then some good sunny spells with only patches of cloud lifting above summits. Cloud building from the west through the late afternoon and evening, falling to 700m or so, with associated poor visibilities in hill fog or drizzle.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Met Office Aberdeen Meteorologist's View

Note the chance of gales on the highest summits in the afternoon and evening, which will give difficult walking conditions with a risk of being blown off balance. Navigation could be challenging with energy output significantly increased when walking into the wind. Good sunny spells in the morning and early afternoon may require suitable eye and skin protection.

Forecast for Sunday 23 Jun 2024

Weather: Cloud in the early hours clearing away to leave another fine, dry, sunny day.

Maximum wind: Southwest 25mph, 40-50mph on the very highest summits at first, easing to 10-15mph by the afternoon.

Chance of cloud-free hill tops above 800m: 90%

Low cloud and visibility: Some early cloud down to 500-700m soon clearing away. Then mainly clear skies and only patches of cloud above summit height.

Temperature: **Glens:** Plus 11 rising to plus 18 Celsius.
At 800m: Plus 6 rising to plus 14 Celsius.
Freezing level: Above summits.
